

It's Your Money! Seminar

PURPOSE...

The primary purpose of the *It's Your Money* seminar is to teach Christian Families God's principles of handling money.

Family finances have been abandoned to the secular world for too long, and the results have been devastating to the family unit. Financial conflicts are the underlying cause of more than 80 percent of all family problems, and the Christian family is not immune.

Not all family financial problems are due to a lack of funds. Many problems result from the mishandling of an adequate amount of money. This practical seminar focuses on helping families respond in a Godly manner to today's financial crisis. It applies to families of all income and age levels.

CONTENT...

- *Investing in Uncertain Times*

MISCONCEPTIONS

There are two common misconceptions about the *It's Your Money* seminar. First, many people assume that a seminar on finances is only for those in debt. This is not the case. Since more than two-thirds of Christ's parables deal specifically with money and not just debt, the principles apply to everyone.

Second, many people think a financial seminar is a fund raising program for the church, but this isn't true either. Giving is discussed as a part of a seminar, but always in the perspective that giving is the result of a Christ-centered life, not a step in finding it.

Come learn the Biblical principles for successful personal money management. Learn what it means to be financially faithful.

The way a Christian uses money is the clearest outside indicator of what the inside commitment is really like.
Matthew 6:21
